

Master Composter NEWSLETTER

June 26, 2023

Marilynn and I tabled at MCP's Native Plant and Pollinator event.

Introduction

In this week's newsletter:

- Page 1: Week recap
- Page 2: Upcoming opportunities
- Page 3: Important resources
- Page 4: Martial Cottle Park
- Page 5: Food for thought: Compost (& related topics) in the news

Week Recap

Thank you to Nathan and Sophia for leading a great workshop in Cupertino on Saturday, and thank you to Marilyn for tabling at the Native Plant and Pollinator Day event on Saturday. I thought summertime would mean a break in school presentations, but Jack presented at GISSV on Thursday and Pam presented at Enlighten Preschool on Friday. Full speed ahead!

Upcoming

Open Workshops

- Saturday, July 22 (10am - 12pm): Compost Basics Workshop (Palo Alto): NEEDS TWO MCs
- Saturday, July 22 (10am - 12pm): Compost Basics Workshop (Saratoga): NEEDS ONE MC
- Saturday, July 29 (10am - 12pm): Compost Basics Workshop (San Jose): NEEDS TWO MCs

Important Resources & CEP News

- Reappointment is right around the corner! Remember to continue to log your hours.

[Log your volunteer hours here!](#)

- You can find previous recorded CE speakers on the private Master Composter website.

[Watch the meeting recordings here](#)

- Looking for example presentations and other helpful resources? Check out our shared Google Drive.

MCP Updates

- Join us on Wednesdays at the park! Jenel, Jack, Jack's dog, Nathan, and I are there most weeks from 9am to 2pm, with special guest appearances by various Master Composters, community volunteers, and others interested in what we've got going on. Just let me know when you plan to come in case we have to cancel or if we have something special going on that day.
- On July 15, we will be having our monthly meeting, followed by a worm bin building workshop, which will count as CE. The monthly meeting portion from 10am to 11am will count as volunteer time, then the workshop (which will be open to community members) will follow from 11am to 12pm. Please join us! And, please let me know if you plan on coming.

Study: Food Waste Composting Results in 39 to 84 Percent Lower Methane Emissions

A new study published in Scientific Reports examined CH₄ emissions reduction through food waste diversion. Researchers from the University of California, Berkeley and Humboldt State University conducted a commercial-scale study of food waste composting.
