Patrick	Lundquist	patricklundquist@gmail.com	Community Event/Tabling Outreach	9/6/2023		Belmont Blooms -- sustainable fashion show (Belmont Village Senior Living Community)	3		0	6	1		Highlights - good food Lowlights - 1. No table traffic. Event host placed our tables in a bad location (outside building) where nobody was. Table should have been located inside the building atrium where the fashion show and other activities were. 2. Seniors in this community may be the wrong audience. Seems like their facility is not setup to allow for any composting or gardening, and low mobility would prevent them from going to our community workshops.
