California State Sales Tax

Scope

In California, sales tax applies to the sale of tangible personal property unless the sale is covered by a specific legal exemption or exclusion. In most circumstances, the 4-H

YDP is exempt from charging sales tax on the items it will sell because it is considered a consumer and not the retailer of specific kinds of tangible personal property under certain conditions. Specific legal exemptions or exclusions that pertain to 4-H units and VMOs engaged in fundraising projects are set forth in Section 6361 and Regulation 1597, Revenue and Taxation Code.

Items Not Taxable

The sale of food products, nonalcoholic beverages or other tangible personal property made or produced by members of the organization are exempt from state sales tax when those sales are made on an irregular or intermittent basis and the organization's profits from those sales are used exclusively in furtherance of the purposes of the organization. A seller's permit is not required for the sale of these items as 4-H is considered a consumer.

Taxable Items

In general, the sale of items not made or produced by group participants such as t-shirts, wrapping paper, mugs, stuffed animals, etc. are subject to California sales tax.

Thus, 4-H may not sell items that require collecting and reporting sales taxes.
