

# Coast Redwood Forests in a Changing California: A Symposium for Scientists and Managers

**Hold the Date: June 21 – 23, 2011**

**Location: Univ. of California, Santa Cruz**

There is no more iconic tree or more closely watched forest ecosystem than coast redwood. With its limited range and high value, the coast redwood forest is a microcosm of many of the emerging science and management issues facing today's forested landscapes. As new information is collected and new management approaches and treatments tried, it is critical that policies and strategies guiding use and management within the redwood region be reviewed and updated based on objective scientific information. With changes in California's demographic makeup, land ownership, and the regional economy, great interest has developed in areas such as forest sustainability and restoration, watershed assessment, fish and wildlife habitat conditions, and new silvicultural strategies. This symposium is part of a continuing effort to promote the development and communication of scientific findings to inform management and policy decisions.

**Audience:** Intended for anyone involved in research, education, management and conservation of coast redwood systems. This includes RPFs, landowners and managers, community and conservation groups, land trusts and policy makers.

**Sponsored by:**

- UC Berkeley Ctr. for Forestry and UC Div. of Ag and Nat. Res.
- Cal Poly San Luis Obispo Nat. Res. Mgt. Dept. and College of Ag., Food and Env. Sci.
- Humboldt State Univ. Dept. of Forestry and Wildland Res. and College of Nat. Res. and Sci.

**Symposium site:** <http://ucanr.org/sites/redwood>

## See Call for Papers and Posters at:

<http://ucanr.org/redwoodabstract>

## Sessions will include:

- Water & Watersheds
- Wildlife, Fisheries, Aquatic Ecology
- Forest Ecology
- Silviculture and Restoration
- Genetics & Regeneration
- Erosion, Physical Processes
- Economics, Policy, Social Sci.
- Forest Health (insects, disease, fire)
- Monitoring
- Climate & Atmosphere
- Carbon Storage and Cycles
- Community Forestry
- Forest Operations
- Wood Products, Utilization

## Conference Organizers who can answer your questions:

- Rick Standiford, UC Berkeley [standifo@berkeley.edu](mailto:standifo@berkeley.edu)
- Doug Piirto, Cal Poly [dpiirto@calpoly.edu](mailto:dpiirto@calpoly.edu)
- John Stuart, Humboldt State [jds2@humboldt.edu](mailto:jds2@humboldt.edu)
- Greg Giusti, UC Coop. Ext. [gagiusti@ucdavis.edu](mailto:gagiusti@ucdavis.edu)
- Yana Valachovic, UC Coop. Ext. [yvala@ucdavis.edu](mailto:yvala@ucdavis.edu)
- Sherry Cooper, UC ANR [slcooper@ucdavis.edu](mailto:slcooper@ucdavis.edu)
