Meeting Announcement

Organic Rice: Current Research and Future Needs

July 26, 9:00 am – 2:00 pm

UCCE Sutter-Yuba Conference Room

142 Garden Hwy

Yuba City, CA 95991

In this meeting, the UCCE rice team will present general guidelines and recent research that can help California organic rice growers improve management. Participants will be given the opportunity to provide input about the most pressing challenges organic growers face that can be addressed through research and outreach. Come prepared to share!

Lunch will be provided. There is no fee to attend but registration is needed to get a head count for lunch. Register at https://ucanr.edu/organic or email laespino@ucanr.edu with the number of participants in your party.
