This Academy is a unique and exciting program emphasizing the practical application of controlled grazing/browsing principles to improve the environment and increase ranch profit. This challenging course consists of a minimum of lecture and a maximum of hands-on experience. Participants learn by actually applying the principles taught in the range and pasture with live animals.

You will learn the following at the Academy: Grazing principles, range and brush ecology, nutrition, guard dogs, reproduction, health, grazing planning, and monitoring.

Speakers
- Roger Ingram, Livestock and Natural Resources Advisor Placer & Nevada Counties
- An Peischel, Small Ruminant Specialist, Tennessee State University

Who Should Attend
Ranchers, land managers and agency personnel who manage livestock on privately owned or public pasture and rangeland.
