Sonoma County Only Categories

County Only Categories do not qualify for State Fashion Revue competition.

Accessories – Create two or more different coordinating accessories made from any material or combination of materials including: fabric, leather, yarn, wire, embroidery floss, duct tape, seed beads, etc. The accessories must coordinate with each other and with the outfit the member chooses to wear with the accessories. The two accessories must be different types of accessories (two hair clips do not qualify, but it can be a hair clip and bracelet) Entry examples: belt, purse, wallet, slippers, jewelry, hat, scarf, gloves, hatband, hair accessories, phone holder, etc.

Embellished – Creatively decorate an existing wearable garment using any variety of embellishing methods including: adding material, paint, dye, embroider thread, trim, beads, sequins, fringe, appliqué, iron-on, lace, etc. Entry must include a picture of the garment before any embellishments.

Non-Garment – Make a non-wearable item using any technique, any materials, and any pattern. Entry examples: laptop carrier, shopping bag, garment bag, blanket, pillowcase, home décor, placemat, holiday décor, teddy bear, item for an animal (bed, blanket, collar, halter cover, lead), etc.

Zero-Waste Challenge: create a garment using pre-consumer or post-consumer zero-waste methods
pre-consumer option: use all your fabric (or skein) to create your garment(s) – with no leftover scraps!

If necessary, scraps can become accessories or embellishments. Entry must describe how all material was used.
post-consumer options: Upcycle a garment into a new garment or create a Trashion Fashion garment

Upcycle option: Turn existing garment(s) into a new, different, wearable garment. Additional fabrics, trim and supplies may be used. This is not an alteration (ie, don't refit a large dress into a similar small dress). The garment(s) should be cut and remade into a new garment that looks different. Entry must include a picture of the garment before deconstruction.

Trashion Fashion option: Construct a garment using at least 75% recyclable or reused materials that would otherwise be trashed/recycled. Materials should not be new/unused for their original purpose and should not be fabric or clothing. Entry must be clean, safe, and durable. Entry must list all materials used.
