Notice the second male Codling moth biofix 5/31. Our in- orchard weather stations show a 173 Degree day accumulation.

Second OFM biofix 5/19 monitored in almond just south of Red Bluff.

We have Walnut Husk Fly traps up and no flies yet.

We measured **first** walnut scale crawlers 5/16/16 on both Howard and Chandler near Red Bluff. Scale crawlers are still active as of 6/6/16 but appear to be declining suggesting we are past peak emergence.
