Thank you  
  
For our Trap Supplies

| INSECT                 | FIRST BIOFIX | SECOND BIOFIX | THIRD BIOFIX | FOURTH BIOFIX | ACTIVITY MOTHS/DAY | AVG. DEG. DAYS/DAY | DAY DEGREES FROM BIOFIX |
|------------------------|--------------|---------------|--------------|---------------|--------------------|--------------------|-------------------------|
| CODLING MOTH           | -            | -             | -            | -             | .13                | -                  | ?                       |
| ORIENTAL FRUIT MOTH    | 3/13         | -             | -            | -             | 1.5                | 14                 | 105                     |
| PEACH TWIG BORER       | -            | -             | -            | -             | -                  | -                  | ?                       |
| NAVEL ORANGE WORM EGGS | -            | -             | -            | -             | -                  | -                  | ?                       |
| SAN JOSE SCALE         | -            | -             | -            | -             | -                  | -                  | ?                       |
| WALNUT SCALE crawlers  | -            | -             | -            | -             | -                  | -                  | ?                       |

This is the second pest update for 2017. The OFM biofix is in Almond south of Red Bluff and notice we caught one Codling Moth in Ashley walnut. We will confirm a CM biofix in the next update. Thanks rick and cyndi

Additional Pest management information is available at the UC IPM website including a day degree calculator. <http://www.ipm.ucdavis.edu>.
