Community Service activities, #5. Examples are:

Served at the Adventist Health dinner

Assisted or served at the TuCare Dinner

Donated or helped sort supplies for an Emerald Star project

Made Valentines for Seniors and dropped them off

#8 Healthy Lifestyle Activity

This section is for activities you do outside of 4-H, where you are involved for at least 25 hours. Being a spectator where you watch a game or play **doesn't count**. This is for being an active participant. It could be, for example, playing a sport, taking music lessons, learning to roller skate, or being employed.

Record participation in individual activities and organized group activities related to a healthy lifestyle outside of the 4-H program. The idea of this section is to show that you use your free time actively engaged in healthy leisure. This shows you are a person who is connected to your community.

Each organization, group, activity or sport counts as one credit per 25 hours of active participation, and can be counted once per quarter, up to four times per year. If you did not complete at least 25 hours of active participation, that activity can't be counted.

Activities that DO count in #8 are:

- Participating in a faith-based youth group
- Employment
- Music lessons
- Active participation in an organization such as Scouts, FFA
- School or community camp such as scout camp, church youth camp, horse camp, sports camp. You must be at the camp for at least 25 hours of awake time. 4-H camp is recorded in #3 Events attended.
- Acting in a youth, community, or school theater production. Only count hours outside of the regular school day.
- Sports:
 - Team sports such as soccer, baseball, football, swimming, basketball, hockey, trap, etc.
 - Individual sports such as dance, gymnastics, martial arts, tennis, golf, rock climbing, horseback riding, figure skating, etc.
 - If you play a sport year-round and devote at least 25 hours per “quarter” (or 3 months) of the program year, you may list it up to four times per program year.
 - Example: Judy plays soccer year-round and practices for 25 hours per season. She can list soccer as a Healthy Lifestyle Activity up to four times (one for each season) in this section and receive four credits.
- Participating in a Queen competition
- Extracurricular activities related to school work, where you have at least 25 hours outside of the regular school day. These could include choir performances, band performances, honor band, tutoring, etc.
 - If you play an instrument and participate in several performing groups, you may list each group separately as long as each group requires at least 25 hours of practice and performance time.
 - Example: Sarah plays the saxophone in the school band. She takes band as a class but also plays at sports games, marches in parades, and has additional after school rehearsals. She may list all the hours spent outside of school up to 25 hours per quarter.

Activities that do NOT count in #8:

- Family vacations, camping with your family
- Academic school work and homework, either public school or home school
- Caring for your pets or livestock
- Spectator activities like watching a play, observing a faith-based ceremony or gathering

Events/activities that are not consistent with 4-H policy

The Tuolumne County 4-H 2022-2023 Record Book year ends on May 31, 2023. Any participation after 5/31/23 counts in the 2023-2024 Record Book.

If you are completing the new **Spark Achievement Report**, that takes the place of the PDR in your record book.
