New Volunteer Training
Does this “Spark” Your Interest?
~ Marianne Bird, 4-H Advisor, Sacramento County

I was recently reminded how great 4-H is at helping kids identify their “sparks.” What’s a spark? It’s a personal interest, talent, or passion that lies within. A spark is something that excites us, something we feel we’re good at, something we really enjoy.

A 4-H member named John sat across from me at the November Leader’s Council meeting. When Gail Jones discussed the opportunity for 4-H Clubs to design their own content for our new county website and asked for youth input on the venture, John, who has experience with computers through a 4-H club project, lit up. He contributed to the discussion, obviously knowledgeable and interested in both the topic and in working with Gail to make our web presence great. It seems this is often the way it works in 4-H: A young person is exposed to a subject area, likes and pursues it, receives encouragement from leaders, and is offered opportunities to build their skills. This often colors their profession or path in life. Computers are a spark for John, and 4-H provides an avenue for him to follow his interest.

So what does nurturing “sparks” have to do with volunteer training? The Thrive Foundation for Youth has provided $1.4 million dollars over five years to the California 4-H program, funds to be used to do what we do best: helping kids grow into competent, confident and caring adults. The really good news is that these resources will provide much needed training for our program volunteers.

The Thrive model includes elements of 4-H which helps kids to:
• Realize they have the power to get better with practice and that mistakes are an important part of learning. (We call this a growth mindset.)
• Know how to set and pursue goals, and be equipped to switch direction when obstacles arise. (Goal setting has always been a key element in our program.)
• Identify and pursue their passion and talents. (Ah yes, the spark!)

Beginning in January, counties will assemble Master Trainer Teams, groups of volunteers, youth members and staff who will participate with other training teams from neighboring counties in a Train-the-Trainer session. This gathering will be interactive, informative, and a lot of fun.

For those of you whose sparks may be leadership or training, this might be an opportunity for you. If you are interested in being part of our training team, please let the county office know.

Does Participation in 4-H Matter?
I hope everyone who reads this can respond with a resounding YES!!

With data from the National 4-H Study on Positive Youth Development, of which California 4-H has participated, we can clearly articulate the difference 4-H participation makes in a young person's life and the ways in which 4-H influence and contribute to positive youth development in participating youth. The results show that the process of youth development is positively influenced in multiple ways by 4-H membership and that young people who participate in 4-H do better in school, are more motivated to help others, and are developing skills in leadership, public speaking, self-esteem, communication and planning, and are making lasting friendships. Additionally, youth who participate in 4-H are more likely to exhibit generosity, contributing to their families and communities and plan to attend college. They are also less likely to engage in risky or problem behaviors.

These are impressive outcomes for youth, preparing them for a positive life trajectory. I am sure each of you involved in 4-H have powerful stories to tell about your first hand observation of the impacts 4-H has had on you or youth with whom you work. I encourage you to share these stories! Share these with your family, your friends and neighbors! And we'd like to hear your stories, too! Click here to share your story with us.
