Monterey	Lockwood	48.7	17 th				

The Team Edge award is divided into 2 categories: Compound (both sighted and non-sighted) and Traditional (Recurve sighted and non-sighted and Long Bow). The scores were determined using a weighted average. Bonus points were awarded to archers shooting multiple distances. Actual scores were used for First-Time archers and for the closest distances in Junior, Intermediate and Senior divisions. 10 Bonus Points were added to the actual score for the next distance (10 yards further) and 20 points were added for the next (20 yards further). If the actual score was 0 at the 2nd or 3rd distance, the archer received the bonus points as a reward for their effort and initiative. The team score was then totalled and averaged by the number of scores posted. Any club with 2 or more archers in the category is eligible for the Team Edge Award. A plaque is awarded to each of the 1st place clubs. Ribbons are awarded to 2nd through 5th places along with a certificate to frame.
