

In-person 4-H Meetings during COVID-19

Frequently Asked Questions

What if someone arrives and has illness symptoms?

All attendees must answer "NO" to all the questions on the Symptom Survey before they are allowed to enter the meeting area. Anyone who answers "YES" to any of the questions must leave the meeting premises immediately.

If someone develops symptoms during the meeting, they should be separated from the group and asked to leave the activity.

What if someone refuses to wear a mask for an indoor activity with youth?

Remind the person that youth under the age of twelve are not eligible for the vaccine. To keep everyone safe, UC 4-H has determined that masks are required, even for vaccinated adults, for indoor activities with youth. If they will not comply, ask them to leave until they can comply with this requirement. If this behavior persists, this should be handled like other 4-H policy or Code of Conduct violations.

What if someone reports they cannot wear a mask for medical reasons?

If a participant (4-H member, volunteer, or parent) tells you that they cannot wear a mask for medical reasons, contact your 4-H staff in the County office to discuss the situation and alternatives.

What if someone reports that they have been diagnosed with COVID-19?

If a volunteer, parent, or 4-H member tells you they have COVID-19 or believe they were exposed at a 4-H activity, immediately report this information to your local 4-H staff.

The Attendance Log from the event must be made available to Public Health contact tracing personnel if a participant and/or a member of the participants' household is diagnosed with COVID-19.
