

Basic Safety Standards for Meeting In-person

Effective March 12, 2022

These safety standards must be followed for all in-person UC 4-H activities.

These protocols apply to all 4-H events that 4-H has responsibility, management, and control of.

Host locations may have additional requirements.

Symptom Screening

DO NOT participate in any in-person 4-H activities if you are sick or have COVID-19 symptoms or if you or someone you have been in contact with has been diagnosed with COVID-19. Symptoms include:

- | | | |
|--|----------------------------------|-----------------------------|
| a. Fever or chills | d. Fatigue | h. Sore throat |
| b. Cough | e. Muscle or body aches | i. Congestion or runny nose |
| c. Shortness of breath
or difficulty
breathing | f. Headache | j. Nausea or vomiting |
| | g. New loss of taste or
smell | k. Diarrhea |

Protocols for Indoor and Outdoor Activities

- Masks are not required, regardless of vaccination status. In compliance with [CDPH guidelines](#), masks are recommended for indoor settings, but are not required.
- Social distancing is no longer required (indoors or outdoors).
- Post the [Symptom Survey sign](#) at the location to remind persons of COVID-19 symptoms and to stay home if they are sick, have symptoms, or have been exposed.
- When possible, maintain an attendance log. This can be used to inform attendees if there is a positive COVID case.
- Make hand sanitizer available. Clean facilities before and after 4-H activities.
- Maximum number of participants at gatherings sponsored/hosted by UC 4-H must be under 10,000 people outdoors and 1,000 people indoors. For events with more than 10,000 participants outdoors or 1,000 indoors, please follow the [state guidelines for mega-events](#)
- Local public health orders or facilities may have stricter safety protocols. 4-H participants must follow local or facility safety protocols if they are stricter than these Basic Safety Guidelines. To find

out if your County has a specific mask order or other public health guidance that is different from the state, review your [local public health COVID website](#)

Protocols for Food Service

- Food service is no longer limited to single use items or packaged meals.
- When meals are prepared and served, at least one 4-H volunteer or 4-H professional serving food at the event must complete the [ServSafe training](#). This does not apply to snacks or pre-packaged food items served at 4-H meetings or activities.
- The ServSafe certified 4-H volunteer or 4-H professional can train additional food servers using the [Clover Safe Note: Food Safety at 4-H Meetings](#)

Protocols for Overnight 4-H Activities

In addition to the protocols listed in this Basic Safety Standards, please see the [Overnight 4-H Event Safety Protocols](#) for details on sleeping, activities, and bathroom accommodations.

People may choose to wear a mask, even when it is not required.

Individuals may have health or personal reasons why they choose to wear a mask. Some may wear a mask because they or loved ones are at higher risk of infection. Some people may wear a mask because they were recently exposed to someone who has COVID.

Please don't speculate on other people's vaccination status or question individuals who choose to wear a mask.

Mask Exceptions and Exemptions

When masks are required for 4-H activities, 4-H members, volunteers and professionals who have an illness or condition that limits their ability to wear a face mask may request an accommodation or alternate masking options (i.e., face shield with drape). They can also request to participate remotely.

- 4-H Members and Volunteers: Please contact your local County 4-H professional.
- 4-H Professionals: Please contact Dave Ritz at daritz@ucanr.edu or 916-230-4374.

COVID Testing

Proof of a negative COVID test is required for the following 4-H sponsored events:

- Statewide Events
- In-State Overnight Events
- Out-of-State Travel

In addition to these events, a host location may require proof of a negative COVID test. Please use the following protocols for confirming a negative COVID test.

Protocols for confirming proof of a negative COVID test

Maintaining individual privacy and confidentiality is a primary concern.

1. Test must be collected within 48 hours prior to the event.
2. Home tests, with name and date documented, are acceptable.
3. A photo or electronic copy of test results is acceptable proof.
4. Test results will be observed and verified by a pre-determined 4-H staff member or adult volunteer.
5. Copies of test results will not be collected or retained by 4-H.
6. Test results will be verified at entry to the event.
7. The record will reflect that test results were viewed and confirmed for each individual. Records will not be retained by 4-H.
8. Persons with Positive or Inconclusive test results are not allowed to attend 4-H events.

COVID Vaccination Status

UC ANR 4-H is **not** requiring proof of vaccination for the events we host, manage and control.

If a host location requires proof of vaccination, the following protocols must be followed:

Protocols for Confirming COVID Vaccination Status

1. Vaccination documentation will be a required upload as part of the on-line registration process.
2. Vaccination status will be kept confidential. Access to information will be limited to Nurse/Health Supervisor, Location/Camp Director, and necessary UC ANR staff
3. Once vaccination information is reviewed and documented, all uploaded vaccination information will be eliminated from the registration files for the event.
4. Additional information can be found at [Risk-Based Guidance for Requiring COVID-19 Vaccination or Negative Test for UC ANR Events/Activities](#)

It is the policy of the University of California (UC) and the UC Division of Agriculture & Natural Resources not to engage in discrimination against or harassment of any person in any of its programs or activities. Inquiries regarding ANR's nondiscrimination policies may be directed to UCANR, Affirmative Action Compliance & Title IX Officer, University of California, Agriculture and Natural Resources, 2801 Second Street, Davis, CA 95618, (530) 750-1343.
