

Establishing a Vision for Policy and
Research to Implement Sustainable
Public Lands Management

Noelle G. Cremers

California Farm Bureau Federation

Vision

- Healthy and Productive Public Rangelands and Forests
- Healthy and Productive private rangelands
- Successful livestock businesses
- How do we achieve these goals?

Monitoring

- NEPA Compliance
- Determination of Land Health Standards
- Post Fire Access

Research

- Post Fire Range Health
- Water Quality
- At risk species
- Riparian Health

Flexibility

- With independence comes increased responsibility
- How do we build in flexibility for management?

Achieving the Vision

- Incorporate research into management plans
- Monitoring to document status and trends
- How do we implement sustainable monitoring program?
- How do we build a culture of collaboration with public land agencies to achieve mutual goals?
