

4-H Gardening Proficiency Program A Member's Guide

OVERVIEW

The 4-H Gardening Proficiency program helps you learn what you need to know about your 4-H project. Your project leader will assist you in setting and achieving your goals. Through your project, you will learn to demonstrate proper care of plants, landscaping techniques and develop an appreciation for the aesthetic values of ornamentals around the home.

There are many resources to help you learn more about your project:

- The University of California Davis has free resources available online by visiting: <http://anrcatalog.ucdavis.edu/4HYouthDevelopment/>. This site lists a variety of project materials and resources recommended for use in your project.
- The Shasta County 4-H Resources and Lending Library at our county 4-H Office includes other books, videos, and reference materials that can be checked out by members and leaders.
- Check to see if there are any horticultural groups or organizations in your community that conduct educational activities and shows. Local groups are excellent sources of help and information.

There are five levels in the Project Proficiency Program. You may choose how many levels you wish to complete:

- ◆ Level I – “Explorer”, you begin to learn about many different aspects of gardening.
- ◆ Level II – “Producer”, you practice and refine the many skills involved in the gardening area.
- ◆ Level III – “Consumer”, you become an experienced gardener.
- ◆ Level IV – “Leader”, allows you to show your own leadership potential.
- ◆ Level V – “Researcher”, you carry out a demonstration or experiment on some aspect of gardening, and prepare a paper or portfolio.

As you work through the proficiency program, your leader will date each skill item as you complete it. When all items in a proficiency level are completed, your leader will sign the Certificate of Achievement.

GARDENING

Level I - Explorer

Date
Completed

- _____ 1. Start a small garden.
- _____ 2. Start at least three of your plants from seed.
- _____ 3. Name the three layers of soil
- _____ 4. Name the particles that make up the three layers of soil.
- _____ 5. Name three root vegetables and tell what makes them a root.
- _____ 6. Know the life cycle of a plant starting with seed and ending with mature plant.
- _____ 7. Explain the basics of photosynthesis.
- _____ 8. Name the male and female part of a flower.
- _____ 9. Discuss why air, water and light are important to your plants.
- _____ 10. Name two pros of a chemical pesticide.
- _____ 11. Name two cons of a chemical pesticide.
- _____ 12. Find and use an organic way of fighting insect pests.
- _____ 13. Make a poster with something to do with gardening. Enter this in a county event or fair.
- _____ 14. Give a demonstration at County Presentation Day.

GARDENING Level II - Producer

Date
Completed

- _____ 1. Name the parts of a plant.
- _____ 2. Name four plant growth factors.
- _____ 3. What effect do these four growth factors have on the plant?
- _____ 4. Add four more types of plants to your garden.
- _____ 5. Explain the purpose of the cotyledon(s).
- _____ 6. Why are diseases a problem in growing plants?
- _____ 7. Explain what is meant by perfect and imperfect flowers.
- _____ 8. Collect seeds of vegetables, field crops, flowers, shrubs and trees. Save seeds from fruit of tomato, apples etc.
- _____ 9. Mount and label the seeds you have collected.
- _____ 10. Experiment with at least two types of fertilizer, then tell which you prefer and why.
- _____ 11. Explain in what way animals and plants tend to balance each other in nature.
- _____ 12. Collect and enter at least five of your home grown vegetables in a fair.
- _____ 13. Visit a grocery store and record the different varieties of the same fruit and vegetable offered (example: red, yellow, eating, cooking)
- _____ 14. Make a poster having something to do with gardening. Then enter it in the fair or talk about your poster in front of a group.
- _____ 15. Give a demonstration at County Presentation Day.
