

UC Landscape Plant Irrigation Trials™ Fall Open Houses

Who should attend? Professionals from landscape, horticulture, and related fields; UC Master Gardeners; garden writers; academics/educators

What's involved? Evaluating aesthetic qualities of selected plants (takes ~60-90 mins)

When: **South Coast REC:** Wednesday September 20, 8:00 am - 12 noon
UC Davis: Tuesday, September 19, arrive between 8:00 am – 11:00 am

Where: **South Coast REC:** 7601 Irvine Blvd., Irvine, CA
UC Davis: directions sent upon registration

Register Here: **South Coast REC:** <https://surveys.ucanr.edu/survey.cfm?surveynumber=41285>
UC Davis: <https://surveys.ucanr.edu/survey.cfm?surveynumber=41320>

About the event: The Open House provides landscape and horticultural industry professionals and educators the opportunity to assess the impact of different levels of irrigation on established plants and potentially discover plant material that may be utilizable in future professional endeavors. The trial fields are uneven mulch/packed dirt in full or partial sun – we suggest sturdy comfortable shoes, sunscreen and/or a hat. Carpooling is encouraged, but not required. At the trial site, you will be provided a ratings sheet, writing implement, and given general instructions to complete the ratings. Cold water will be provided. We hope to see you there!

About the project: UC LPIT™ seeks to improve urban water-use efficiency by evaluating landscape plant performance on three irrigation treatments corresponding to the WUCOLS High, Moderate, and Low categories of water need.

Participation is voluntary, The University of California is an equal opportunity provider and employer.
