ABCs of Insect Management in Spanish and English
 Cooperative Extension Auditorium
 1432 Freedom Blvd., Watsonville
August 26, 2010 9:00 am – 12:00 pm (English)
1:00 pm – 4:00 pm (Spanish)

Continuing with the popular ABCs series, this program will cover basic biology of the important insect pests associated with nursery and floriculture crops including aphids, whiteflies, mealybugs, thrips, mites, scales, leafhoppers, beetles and leafminers. Special attention will be given to identification of various life stages of the light brown apple moth (LBAM). Management options such as monitoring, IPM and biological control will be discussed. The hands-on program offers the unique educational experience of examining real and preserved specimens. Ample time will be spent examining specimens with instructors.

Moderator: Steve Tjosvold, UC Cooperative Extension, Santa Cruz and Monterey Counties

Agenda:

- 8:30 am – 9:00 am Registration and Refreshments
