

MG Continuing Education from Your Own Home

What if you can't get out to enough MG monthly meetings, workshops, or seminars to get your required 12 hours per year of continuing education?

Here are some options for on-line continuing education that are acceptable within the UCCE-Los Angeles County Program.

UCTV - California Master Gardener Lecture Series <https://www.uctv.tv/series/?seriesnumber=11>

Dept. of Entomology, UC Riverside: Asian Citrus Psyllid and the Dreaded Huanglongbing Citrus Disease (on-line self-directed course which familiarizes users with the biology and management of ACP and HLB) The course typically takes an hour to complete: <http://class.ucanr.edu/course/view.php?id=16>

UC IPM: *Biological Control in Gardens and Landscapes* (narrated PowerPoint): http://stream.ucanr.org/biocontrol_final/index.htm

UC IPM: *Managing Argentine Ants Around the Home* (YouTube video): <https://www.youtube.com/watch?v=iOLJbtRSCIA>

Pesticides, People, and Pollinators: Answers to Tricky Questions for Master Gardeners (Archived Webinar): <https://www.youtube.com/watch?v=ZrYfGYWaxvA>

The New California Landscape: Maintaining an Existing Landscape w/ UCCE's Janet Hartin (YouTube video): <https://www.youtube.com/watch?v=tPLPz5a1Vk4&feature=youtu.be>

The New California Landscape: Planning a Low-Water Landscape (YouTube video): https://www.youtube.com/watch?v=l2-ADIHwP_I&feature=youtu.be

Oregon State University Advanced MG training "*Powdery Mildew: Biology and Management in the Garden*" (Archived webinar/YouTube video): <https://www.youtube.com/watch?v=tc9XpEGZjVY&feature=youtu.be>

Oregon State University Advanced MG training "*Frontiers in Slug and Snail Management*" (Archived webinar/YouTube video): <https://www.youtube.com/watch?v=ucXUMaTVfSk&feature=youtu.be>
