STATE FIRE THREAT AREAS VS ASSUMED ECONOMIC SOURCING DISTANCE FOR INDUSTRIAL BIOMASS POWER PLANTS THAT USE FOREST BIOMASS

INDUSTRIAL BIOMASS POWER PLANTS ≥ 0.5 MW
RADII ARE ONLY FOR OPERATIONAL BIOMASS POWER PLANTS

LEGEND

BIOMASS POWER PLANTS
- More than 30 MW
- Between 10 and 30 MW
- Less than 10 MW

FIRE THREAT
- Extreme
- Very High
- High

ASSUMED ECONOMIC SOURCING DISTANCE RADIUS FOR FOREST BIOMASS
- About 33 air miles or roughly 50 road miles

DATA SOURCE: State of California, FRAP

FACILITY LIST

OPERATIONAL
- Buena Vista Biomass Power
- Burney Forest Power
- Global Ampersand Chowchilla Power
- Collins Pine Biomass Power
- Greenleaf Desert View Power
- Covanta Delano Power
- Korea East West Fairhaven Power
- Dinuba Energy
- DTE Stockton Biomass Power
- Greenleaf Honey Lake Power
- Merced Power
- DTE Mt. Pinon Cogen
- Pacific Ultrapower Chinese Station Power

- Rio Bravo Fresno Biomass Power
- Rio Bravo Rocklin Biomass Power
- Hopebaurg Forest Products Biomass Power
- SPI Burney Biomass Power
- SPI Anderson Biomass Power
- SPI Lincoln Biomass Power
- SPI Quincy Biomass Power
- SPI Sonora Standard Biomass Power
- Wadham Biomass Power
- Wheelabrator Shasta Biomass Energy
- DTE Woodland Biomass Power
- Biomass One LP
- Rough & Ready Power
