UC ANR Strategic Plan
Overview

Kathy Eftekhari, Chief of Staff
UC ANR “Big Audacious Goal” - Draft

UC ANR will be recognized by EVERY Californian for having made a positive difference in their lives.

Vivid Description:
Our commitment to building an inclusive and equitable society will contribute to a stronger California; our people will mirror the diverse populations we serve. We will be proud, inspired, and motivated, knowing that our work has tangible local and global impact. We will develop a youth and adult population of science-minded critical thinkers with 21st century skills who are leaders in their communities. We will be a key player in California’s workforce development and economic prosperity. We will fearlessly catalyze both rural and urban partners to make California the world’s leader in agricultural production, food safety, security and distribution, and in natural resource management. Through engagement with our communities, we will strengthen California’s preparedness and resilience to disease, climate change, fires, and drought. Others around the world will emulate the UC ANR model and implement its practical and affordable solutions.

Focus: Strengthening Partnerships

Presenters:

- Glenda Humiston, Vice President
- Wendy Powers, Associate Vice President
- Gabe Youtsey, Chief Innovation Officer
Roadmap for Strengthening Partnerships

• Leverage long history of successful collaborations to build new partnerships

• Enhance partnerships as a mechanism to expand our reach and recognition, find synergies to solve bandwidth challenges, and bring new resources to UC ANR

• Collaborate with a broader and more diverse array of partners to augment UC ANR talents and fill in gaps
Secured $3.2M annual partner funding for 28 new positions

Received $1M external funding to launch VINE commercialization program

Final stages of agreement with Ag software platform company

Implemented common language about the public impact/value of our work

Garnered enhanced advocacy/support from economic development organizations

Quantified and reported on economic value of working landscapes and agriculture to CA economy
### Non-traditionally Funded Positions 2017-19

*Citrus Research Board is $75K per year for ten years*
Challenge – Need to Rebuild UCCE Academic Footprint

- Government Funding for Agricultural Research is Declining
- Urgent Need for Disaster Response Solutions (COVID-19, Fire, Climate Change, Pests, etc.)

UCCE Academics

- In 1990:
  - 202 Specialists
  - 326 Advisors

UCCE in 2019:

- 120 Specialists
- 154 Advisors

UC ANR Resources are Stretched Very Thin
Opportunity – Expand Partners for Greater Impact

There is untapped opportunity for UC ANR to partner with all aspects of the UC system, the CSU and Community College systems, as well as other research institutions and local partners to solve societal problems.

Such collaborations could expand funding and investment opportunities for UC ANR – while broadening public awareness of the value of research and Extension – and allow us to leverage each other’s assets.
Proposed Actions – Widespread Partnering

1. Identify new partnership opportunities
   • UC and non-UC campuses
   • Local, State and Federal governments
   • Non-Governmental Organizations
   • Private sector

2. Develop strategies to increase REC users

3. Design new models to support our efforts
   • Positions, facilities and/or equipment
   • Projects and support expenses
   • Remove any roadblocks to partnership

What haven’t we tried? Who haven’t we partnered with?
Challenge – Working Landscapes Contribution to State’s Economy is Overlooked and/or Undervalued

- Rural communities never recovered from the 2008-11 recession
- Mechanization, environmental regulations & increased global competition have greatly impacted rural economies

“Working landscapes” are under-appreciated for the vital role they play in providing food and fiber as well as wildlife habitat, recreational venues, energy, and valuable ecosystem services.
Strengthen How UC ANR Contributes to the Economic Well-being of California

Opportunity –

- UC ANR’s work has always contributed to a strong economy
  - Profitability and productivity of working landscapes
  - Stretching the food dollar and improved nutrition
  - Workforce development and industry support
- Role can be multifaceted
  - Discovery that leads to sound policy
  - Convening players on all sides of an issue
  - Identifying priorities and recommendations
1. Engage more deliberately with external stakeholders

2. Draw attention to drivers and opportunities with the rural economy

3. Support local and regional initiatives as well as statewide strategies

4. Quantify how UC ANR contributes
Proposed Actions

“Elevate Rural California”

• **Biomass Utilization**
  - Develop next-generation, advanced forest products industry

• **Broadband Connectivity**
  - Build support to fund broadband infrastructure
  - Deploy internet-of-things in agriculture, tourism, etc.

• **Water Infrastructure**
  - Coordinate statewide integrated watershed management
  - Explore innovative ways to finance water infrastructure

• **Ecosystem Services**
  - Develop framework for mapping, valuing, and investing in ES
Challenge – Need to Capitalize on Interest in “Innovation”

- New Technologies, Crops and Tools Required
- Food & Nutrition Systems are Fragile
- Climate Change Impacts
- Economic Disconnects

Need Solutions for:
- Worker & Community Well-being
- Industry Recovery, Resiliency & Compliance
- Market Competitiveness, Growth & Profitability
Opportunity – Accelerate Technology Adoption

Innovation is critical to our clientele; Leading innovation is key to our relevance and public support

- Grow Support for Research
- Engage UCCE / AES More Fully
- Increase Public-Private Collaborations
- Expand and Enhance the “Bridge” from Research to Market
Proposed Actions – Build on Innovation Success

1. Develop programs to support commercialization of innovations
2. Convene and facilitate collaboration on projects
3. Measure and report economic, societal, environmental impacts
Proposed Actions – Engage All ANR Programs and Academics in Innovation Activities

UNIVERSITY OF CALIFORNIA Agriculture and Natural Resources

The VERDE Innovation Network for Entrepreneurship

Innovation Strategy
Catalyze statewide innovation & entrepreneurship network
Engage all rural communities & industry clusters
Grow the pipeline of students and & innovators
Leverage UC innovation activity

290 UCCE Researchers in 58 counties across the state
9 Research and Extension Centers spanning relevant climate zones
Summary: Strengthening Partnerships – Goals 1, 3 & 4

- Conduct needs assessments to identify opportunities to collaborate, new partners and priority initiatives
- Seek to expand partnerships among diverse external stakeholders & all facets of the UC system
- Develop new methods to expand utilization of ANR academics and facilities for research and extension
- Educate public & policymakers on values of working landscapes & policies necessary to support them
- Enhance opportunities to support innovation from research and moving ideas to market
- Advance opportunities to increase public and private support of ANR programs and initiatives
