

3/31/2020

CUSD Families,

Hoping you are all doing as well as can be expected in these extremely challenging times.

Meals---starting next week, we will be providing meals to all students who can access them as well as providing hard-copy student work packets for those who need them (to the best of our ability).

Meals will be provided between 11:00-1:00 at all elementary sites as well as delivered to designated bus stops using district vans (access the either link below, for posted bus routes and drop off times---as they appear on our main webpage)

<https://drive.google.com/drive/folders/15eQvOG8unnrhezBx2lwJuvlDvxd-obrz>

<https://sites.google.com/a/custudents.net/transportation/routes>

The times the vans arrive may be off a bit in the first few days as drivers and staff work to see how best to coordinate and facilitate the deliveries. Please be patient. Also, at the bus stops, please practice social distancing, do not congregate and just do the "grab and go" of meals and student work as best can.

It would be helpful if you could call 754-2315 to let us know if you will be picking up meals, what bus stop you will be at and how many student meals you need.

Bus routes will be adjusted and updated weekly, based upon demand and experience. Check the website for these changes each week.

Student Work---hard copy student work packets will be distributed at the elementary school sites and by vans at bus stops as best we can. Not knowing who will need them and where they will be picked up will present some challenges, but we will work through them together and do the best we can. Any advanced communication to your school site (teacher or administration) will help us to be better prepared.

Patience and understanding will be important as we all work together to provide services and supports for our students, and families.

Stay healthy, wash your hands and take care of yourselves and each other.

Mark Campbell

Superintendent

Calaveras Unified School District
