

"CLOVER PATCHING"

**4-H Clovers are now traveling
Throughout the community.**

**Send a little clover patch to your Friends with this
4-H Clover Patch Fundraiser!**

Give your friends a little 4-H green on their lawns with these cute little clover patches creating "Friends of 4-H"!!!! Along with your donation. It is easy to do, just fill out the form on the back and send it to the UCCE Office. These little clovers will find their way to your friend's home, brightening up their day and lawn, spreading the 4-H spirit! These little clovers will not stay long though, as they have many yards to visit. Be a part of their journey to see how they brighten their day. Keep your eyes open as they mysteriously appear and disappear, leaving 4-H magic everywhere they go.

If you would like to send these fun little clovers to your friend's yard, just provide us with your friend (or friends) information, along with your donation. The patch will then trek on over to their lawn. You can clover patch more than one of your friends. Help us keep the clovers on their journey; lets' see how many 4-H friends we can visit this year! Last year they spread the 4-H magic to just over 75 visits through their travels!!

Help us raise money for the 4-H Leader's Council of Tehama County.

Of course, the removal of these clovers will be done at no charge, so please do not hurt our little green friends, let them grow and flourish and spread the cheer.

**"Thank you" for your sense of humor and your support of the
UCANR's 4-H Youth Development Program.**
