

UC Cooperative Extension Capitol Corridor MCP

FY 2020-2021

Serving Sacramento, Solano, and Yolo Counties

Visit us on the web at <http://cecapitolcorridor.ucanr.edu>

University of California Agriculture and Natural Resources (UC ANR) brings the power of UC research in agriculture, natural resources, nutrition and youth development to local communities to improve the lives of all Californians.

Our Cooperative Extension (UCCE) county-based advisors, community education specialists, and campus-based academics work as teams to bring practical, trusted, science-based solutions to our state. We are problem solvers, catalysts, collaborators, educators, and stewards of the land, living in the communities we serve.

UCCE Funding

We appreciate the strong support afforded to UCCE Capitol Corridor by Sacramento, Solano, and Yolo counties. The partnership between the counties and the University of California has enabled UCCE to provide high-quality programs in our communities for over one hundred years and will for generations to come.

It is estimated that for every
\$1
 invested in agricultural
 research and extension
 there is a return of
\$20
 to the community.
Alston, Anderson et al (2010)
