

Advances in Vineyard Water & Nutrient Management Workshop

DESCRIPTION

The workshop will feature presentations by various experts and researchers focusing on best irrigation and nutrient management practices of vineyards in the San Joaquin Valley. Attendees will gain insights into the irrigation and nutrient needs of vineyards. This knowledge aims to ensure healthier vine development, better resource utilization, and more resilient vineyards in the face of climate change. Growers, CCAs, and other agricultural professionals are encouraged to attend. Workshop attendees can request free one-on-one assistance from a farm advisor.

AGENDA
