

JUNE Vegetable Planting Guide

Peg Smith, UC Master Gardener, Yolo County

June heat can be unpredictable. If you have recent transplants and temperatures soar shade the transplants through the intense heat. As summer heat sets in, adjust irrigation as needed to deliver deep soakings to the vegetables at regular intervals. Mulch vegetables to conserve water, cool plant roots, and control weeds.

YOLO COUNTY VEGETABLES RECOMMENDED FOR JUNE

Vegetable	WEEK 1	WEEK 2	WEEK 3	WEEK 4
Beans (Green)	Seed	Seed	Seed	Seed
Corn	Seed	Seed	Seed	Seed
Cucumber	Seed			
Melon	Seed	Seed
