

THIRD THURSDAY THINGS FROM THE FIELD

WHAT IS IT?

A monthly event in 2025 on the Third Thursday of every month to meet Sac Valley orchard advisors and other industry members in a casual setting and get timely updates on issues we've been seeing in the field.

Orchard management topics (earn CEUs):

In November, UCCE IPM and Orchard Advisors will discuss IPM problems they encountered over the 2025 season, including red leaf blotch (almonds), navel orangeworm (almonds and walnuts), and plant bugs (almonds), and how these might impact the 2026 season. (2 DPR CE hours requested)

Open discussion:

After the talk, bring observations, questions and pictures about your orchards for UCCE advisors and the groups to discuss.

WHEN & WHERE

November 20, 1:00 pm- 3:00 pm

UCCE Sutter-Yuba

142A Garden Hwy, Yuba City

NOVEMBER TOPIC Sacramento Valley Tree Crop IPM Review-2025
