

GROWING WITH BIOCHAR

A Training Event for California Agriculture

This free, full-day training is designed for agricultural professionals who are interested in supporting farmers to effectively incorporate biochar into farming practices, but are unsure of where and how to start. Participants will gain practical knowledge, proven tools, and peer connections to support biochar adoption across California's diverse cropping systems. **Choose one session to attend.**

Registration is required – limited seats available.

SACRAMENTO

Dec. 8, 2025

Whether you advise farmers, manage land, shape sustainability programs, or develop agricultural policy, this event will help you confidently integrate biochar into regenerative agriculture and connect with a growing community of practice.

- **Gain practical insights from leading researchers, practitioners, biochar producers and agency partners**
- **Explore crop-specific case studies and on-farm applications**
- **Understand cost-share programs and policy incentives (NRCS, CDFA)**
- **Build a community of practice to support biochar outreach and implementation**

Eligible for 5.5 hours of Continuing Education Credits for Certified Crop Advisors through the Agronomy Society of America (ASA)
