

Announcing a one-day workshop on:

Collaboration in Natural Resources Management

Hosted by the Sierra Nevada Adaptive Management Project

<http://snamp.cnr.berkeley.edu>

(University of California Cooperative Extension outreach team)

October 15, 2014, 10am to 4pm

Lahontan Regional Water Quality Control Board Annex (971 Silver Dollar Ave., South Lake Tahoe, CA 96150)

Workshop Goal:

The goal of this workshop is to build on a SNAMP collaboration workshop series held in Spring/Summer 2014. The objectives are to help improve communication by building facilitation skills within the many groups involved in collaboration in natural resource management projects. We will work to build a common language to support collaboration, share tools to prevent problems, and demonstrate interventions to support success when problems arise. This workshop is designed to support the building of a common knowledge base of collaboration skills through mutual learning and discussion. UC Cooperative Extension has developed training modules for all levels of natural resource management staff and stakeholders interested in developing these skills.

SNAMP collaborative field trip on the Tahoe National Forest involving multiple agencies and stakeholders.

Workshop Content:

This workshop will focus on detailed discussions of participants' real life experiences in the many collaborative efforts underway in the natural resource management world and will include practice and discussion of the most appropriate facilitation practices. The workshop guest speaker will be Scott

Conway, Restoration Ecologist, USFS Remote Sensing Lab – Region 5. Scott shepherded the Tahoe National Forest Sagehen Collaborative Project through design and implementation.

Who Should Attend:

This one day workshop is open to prior workshop participants, as well as anyone interested in improving their collaboration and facilitation skill sets. Resource managers, private landowners, environmental activists concerned about natural resource management, recreationists, individuals interested in learning facilitation skills, and anyone engaged in a collaborative process are encouraged to attend.

Registration:

Registration is required and there is a \$15.00 lunch and materials fee at each workshop. Please register on-line at

<http://ucanr.edu/camworkshop/>. For more information on the workshops please contact Kim Ingram at kcingram@ucanr.edu or check the workshop web page <http://ucanr.edu/collaboration/>.
