

Prescribed Fire on Private Lands

**Hopland Research and Extension Center
4070 University Rd, Hopland, CA 95449
June 3, 2019, 10 am - 4 pm**

**Are you interested in using prescribed fire as a management tool?
Are you interested in learning more about options for prescribed fire on private lands, laws and permits, and community-based prescribed burn associations? If so, this training is for you!**

This training is designed for private landowners and land managers, and anyone else who is interested in learning more about how to plan and implement prescribed fire on private lands. The workshop will highlight successes from neighboring counties, including the prescribed burn association model that is currently gaining momentum in Humboldt County and across the North State. We hope you will join us!

Topics include:

- The purpose and benefits of prescribed fire
- Options for prescribed fire on private lands, including prescribed burn associations and CAL FIRE Vegetation Management Program
- Prescribed fire laws and regulations
- Air quality and smoke management
- Burn planning and unit preparation
- Ignition techniques
- Fire weather websites and tools
- Safety and personal protective equipment
- Grants and other funding opportunities
- Formation of a Mendocino County Prescribed Burn Association!

This event is \$35 and includes lunch and refreshments.
