

Save the Date: Tree Mortality Data Collection Network Workshop

March 10, 2020 • 9:30 am – 5 pm

US Forest Service Wildfire Training Center, McClellan, CA

Please join us for a workshop to discuss recent and ongoing results and analyses of Sierra Nevada tree mortality. The desired outcomes of the workshop are to:

- Share latest results on live and dead trees, tree fall rates, fuels, regeneration, and post-mortality management
- Discuss frameworks for incorporating data into forest management planning and identify management challenges and opportunities: **What now?**
- Please visit for more info: <http://ucanr.edu/treemortalitynetwork>
