

February 2022

Greetings Tahoe Gardeners,

It's been a topsy turvy winter. Early snow, no snow, lots of snow, then back to minimal snow. Let's hope the blanket covering all our plants sticks around and gets thicker before spring!

This newsletter announces the 2022 Grow Your Own Tahoe workshop series. We have a great line up of classes, some new topics and some previous popular presentations. The Lake Tahoe Master Gardener's collaboration with **Slow Food Lake Tahoe**, **UC Davis Tahoe Environmental Research Center** and **UNR Desert Farming Initiative** is a rather unique effort to draw on the strengths of each organization to promote growing plants in the environmentally sensitive Tahoe Basin at elevations that are at times challenging. We all hope these workshops will contribute to your knowledge and then joy of growing your own food and ornamental plants in an environmentally friendly way.

Two years ago, Covid forced us to move to a virtual format. This year we are bringing back face to face presentations in addition to our extremely successful online and recorded format. Presentations are free with a \$15 charge for plants, seeds and tubers should you want them.

I hope you enjoy what remains of winter and have a delightful spring bloom!

Very best,

Mary Wall
Lake Tahoe Master Gardeners
Program Coordinator

The Grow Your Own Tahoe (GYOT) workshops open early this year with a session on Germinating Seeds and Transplanting. GYOT is a collaboration among several local organizations to bring high elevation organic growing expertise to local gardeners. Slow Food Lake Tahoe is managing the registration process which can be done [here](#) for all the workshops.

Note that all sessions are offered online. Several are also offered in person at the Truckee Community Garden (different dates). A limited number of plants and seeds can be purchased.

March 2 Germinating seeds and Transplanting

April 6 Growing Mushrooms

May 4 Gardening 101 & Fertilizer

May 11 Beans & Peas from Seed

May 18 Spicy Salads! Leafy Vegetables

May 25 Potatoes & Sunchokes

June 1 Squash

June 6 Tomatoes

June 15 Herbs
