One Page Business Plan for Non-Profit Organizations, Jim Horan, ISBN 978-1-891315-02-2, The One Page Business Plan Company, 2007

MAGAZINES

Horticulture Magazine

<http://www.hortmag.com>

A premier magazine for the beginning-to-advanced gardener. Introduces new plant varieties, in-depth discussions of selected plants and how to cultivate, Q & A's, etc.

Sunset Magazine

<http://www.sunset.com>

Living in the West – good information about gardening and plants (and general living topics) for our area.

WEB SITES

Square Foot Gardening

www.squarefootgardening.com

Official site of Square Foot Gardening and **Mel Bartholomew**, originator and author. Description, overview, news, columns, kids section, tips, humor, tips and FAQ's. Very useful.

Plant Right – Keep Invasive Species in Check

<http://www.plantright.org/regions>

INVASIVE PLANTS IN YOUR REGION

Gives information by region, i.e., Central Valley, about plants that are invasive in. They encourage you to not buy, sell, plant, or promote the listed species. Click on the plant name for more details, including links to photos of that plant and their invasion of natural areas. Use the "recommended alternatives" link to learn about the beautiful, non-invasive plants that we suggest for your gardening and landscaping needs that will not endanger California's wildlands.
