

University of California

UC Davis Arboretum

<http://arboretum.ucdavis.edu/>

The Arboretum gardens are open 24 hours a day, every day of the year, and there is no charge for admission. The Arboretum has something for everyone

Arboretum All-Stars

http://arboretum.ucdavis.edu/arboretum_all_stars.aspx

The horticultural staff of the UC Davis Arboretum have identified 100 tough, reliable plants that have been tested in the Arboretum, are easy to grow, don't need a lot of water, have few problems with pests or diseases, and have outstanding qualities in the garden. Many of them are California native plants and support native birds and insects. Most All-Star plants can be successfully planted and grown throughout California.

Merced County UC Cooperative Extension

Gardening and Master Gardening

http://cemerced.ucdavis.edu/Gardening_and_Master_Gardening/

Across California, the University of California's 64 Cooperative Extension offices are local problem-solving centers. We are the bridge between local issues and the power of UC research.

University of California Agriculture and Natural Resources

<http://ucanr.org/>

The Division of Agriculture and Natural Resources (ANR) is a statewide network of University of California researchers and educators dedicated to the creation, development and application of knowledge in agricultural, natural and human resources.

-Daniel M. Dooley, Vice President

Gardening

[ANR Gardening Publications](#)

A searchable catalog of publications on many gardening topics. Some publications are available for purchase in booklet, magazine, book or leaflet form; others may be downloaded immediately for free.

[California Backyard Orchard](#)

Information about growing California fruit and nut crops in the home garden. The content for the site comes from UC Cooperative Extension farm advisors and Master Gardeners.

[California Gardening](#)

An information portal that focuses on sustainable gardening practices and uses a question and answer format to present solutions. A blog on the Web site's home page, updated weekly, highlights gardening content pertinent to the season. The site also links to useful gardening resources on other UC Web pages.

[California Master Gardeners](#)

The University of California Master Gardener program extends to the public research-based information verified by UC experts about home horticulture and pest management. In exchange for the training and materials received from the UC, Master Gardeners perform volunteer services in a myriad of venues.

[Fruits and Nuts Research and Information Center](#)

Information about UC fruit and nut crop research and publications, and the scientists who are conducting fruit and nut research.

[Ornamental Horticulture Research and Information Center](#)

Event calendars, current issues, newsletter, publications, and a photo gallery related to ornamental horticulture.

[Pest Notes](#)

Pest management guidelines for homes and landscapes.
