

CLOVER SAFE #29

FIELD TRIP SAFETY

Field trips are an important element of the University of California 4-H YDP. Insuring that field trips are rewarding, educational, productive, enjoyable, successful, and safe experiences requires careful and thorough planning on the part of all participating 4-H staff, volunteers, and members. For additional information about field trip safety, go to the Clover Safe note at: <http://ucanr.org/cloversafe>.
