

UC ANR Meetings, Events, and Activities for Employees, Volunteers, and Participants

To reduce potential exposure or spread of COVID-19, we must continue to follow these five basic safety protocols (even if you have been fully vaccinated):

- 1. Health Screening:** Employees who are working in-person at an ANR office, field site, or in the community must take a daily clearance to work survey. Do not come to work or participate in any in-person ANR activities if you are ill, experiencing COVID-19 symptoms, if you have been diagnosed with COVID-19, or if you have been in close contact with someone who has been diagnosed with COVID-19. Symptoms include: fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea. See CDC for more information about symptoms:
<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>
- 2. Social Distancing:** Maintain 6 feet of distance from other people at all times.
- 3. Face Coverings:** Wear face coverings (cloth or paper masks, etc.) when engaged in work or UC ANR activities. Double masking is even more effective.
- 4. Maintain Hygiene:** Frequently clean and disinfect workspaces and equipment, wash hands often, and use hand sanitizer. Ensure that you have adequate supplies for cleaning and disinfecting.
- 5. Avoid Large Gatherings:** Meetings/programs/workshops and similar activities should be conducted remotely whenever possible. In-person activities must follow the occupancy limits and other protective measures included in UC ANR's safety standards, or your County public health orders, if more restrictive.

Make sure that you have received the specific COVID-19 safety plan or guidelines for your worksite or program activities. If you are unsure, ask your supervisor or volunteer leader.
