

The UC Master Gardeners of Santa Barbara County present:  
**FREE MONTHLY ZOOM GARDEN TALK**

Santa Barbara's Mediterranean climate is ideal for growing a wide variety of attractive, aromatic and culinary herbs. Herbs can easily be grown in the ground or in containers on a patio or balcony. And they make a wonderful addition to borders, vegetable and flower gardens.

Master Gardeners Cindy Davis and Lorie Nash will present a research-based presentation on; why and how to grow herbs, easy to grow varieties, drying herbs, and much more.
