

# Welcome to the UCCE Small Farms Network

Connecting California's Small Scale and Historically Underserved Farmers to University of California Resources

Supported with Funding from the CDFA California Underserved & Small Producers (CUSP) Program

Bienvenido

Crop, Pest, Disease & Irrigation Management

On Farm Food Safety

Regulatory Compliance & Grant Application Support

## Bilingual and Culturally Relevant Technical Assistance & Training

A key factor of our work includes providing culturally-relevant, bilingual one-on-one technical assistance and training. In addition to production issues, the Small Farms team directly assists farmers with regulatory compliance, risk management, marketing, and grant applications.

## Learner Centered Workshops

Using hands-on, culturally-relevant, and farmer-to-farmer learning strategies, our team has hosted over 34 workshops since 2021, reaching 1300+ attendees.

## Policy Engagement

We conduct research to inform policy communications and educate policy makers about issues faced by our clientele.

## Our Clientele

Welcome

We serve a diverse clientele including:

- small scale and diversified family farms
- beginning, immigrant, and refugee farmers
- growers of specialty crops not covered by traditional commodity-based extension programs

## Our Impact

Since 2021...

1600+ Farmers Assisted  
95% BIPOC & Historically Underserved Farmers

\$5.4M COVID & Drought Relief  
Awarded Directly to Farmers

147 Climate Smart Agriculture  
Projects Implemented
