Labor is a legitimate cost item. However, it is recommended that labor expense not be made part of the project profit and loss statement, since an animal project also includes a number of educational and human behavioral characteristics to which no monetary values have been assigned.

$$\text{The Value of Your Labor} = \frac{\text{Total Hours}}{\text{Total Hours}} \times \frac{\text{Rate per Hour}}{\text{Rate per Hour}} = \$ \frac{\text{Labor Value}}{\text{Labor Value}}$$
