

Planting Under Oaks

From the University of California:

http://ucanr.edu/sites/oak_range/Oak_Articles_On_Line/Oaks_and_Landscaping_urban_forestry_/Plant_List_and_Procedures_for_Landscaping_Under_Native_Oaks_of_the_Central_Valley/

This is a great website, with much more information about caring for native oaks than only what to plant nearby.

Here's another article and list of plants:

<http://www.orchardnursery.com/pdfs/nurserycare/21-oaksplantingunder.pdf>

This one has some pictures of the flowers and plants compatible with oaks:

<http://www.mostlynatives.com/plant-characteristics/under-oaks>

And more from UC Agriculture and Natural Resources:

<http://pcmg.ucanr.org/files/178863.pdf>

From the City of Davis:

<http://cityofdavis.org/home/showdocument?id=4769>

Much of this information repeats itself—that's because it's research and scientifically based.

Good luck. Please visit our Facebook page and tell us about your experience planting under oaks!
