Composting and Mulch Workshop

Presented on Zoom November 20, 2020

Learn the basics of backyard composting and how it can improve your soil. You will learn how to get started and keep your compost pile healthy. We will also discuss the benefits of using mulch to help keep your soil healthy and happy.

<https://youtu.be/0uDneOGX3DE>

PowerPoint: [Composting Basics Zoom 112020](#), [Short Mulching 112020PPT final](#)

Handouts: [Composting Tips](#), [Trouble shooting compost](#) .

In response to a question raised during our Composting and Mulching Zoom presentation, Master Gardeners of Placer County provide the following information received from Recology Auburn Placer:

Provision of green waste bins varies throughout Recology Auburn Placer's service area, depending on contracts with our franchise partners. Recology is currently preparing to move to providing green waste bins to all of its customers in the future, in response to changing State mandates. This statute is explained here: <https://www.calrecycle.ca.gov/blogs/in-the-loop/in-the-loop/2019/02/11/california-ramps-up-green-waste-recycling>

In the interim, residents can take green waste to a transfer station. Green waste passes for a free 2 yard delivery are mailed in April and in November. More at: <https://onebigbin.com/battery/>

For more information about Recology Auburn Placer, visit their website at <https://www.recology.com/recology-auburn-placer/> or call (530) 885-3735.

Container Gardening Workshop

Presented on Zoom January 9, 2021

Container gardening is a great solution if you don't have a suitable garden space. This workshop will cover choosing the right container, plant selection tips, transplanting and more. Learn how to be successful growing ornamental plants, as well as fruit and vegetables.
